

Passive-Aggressive Note #1: How to Maintain a Supply of Cold Beverages

```
public class Fridge {  
    Queue <Beverage> beverages;  
    ...  
    public Beverage takeColdestBeverageCourteously(Beverage warmOne) {  
        Beverage coldOne = this.beverages.dequeue();  
        this.beverages.enqueue(warmOne);  
        return coldOne;  
    }  
}
```
